SUPPLEMENTAL REISSUE APPLICATION DECLARATION
UNDER 37 C.F.R. § 1.175(b)(1)

United States Patent and Trademark Office
P.O. Box 2327
Arlington, VA 22202

Dear Sir:

Further to the prior reissue declarations submitted in the above-captioned application, we, the undersigned inventors, hereby declare that:

1. Our residence, post office address and citizenship are stated below next to our names.
2. We have reviewed and understand the claims as they have been amended during prosecution of the above-captioned application, including the claims as amended in the attached document entitled "Claim Amendments to be Filed With Supplemental Reissue Declaration". On information provided to us by our attorneys, we believe the document entitled "Claim Amendments to be Filed With Supplemental Reissue Declaration" will be filed in the U.S. Patent and Trademark Office at the same time as this Supplemental Declaration.

Appl. No. : 09/669,869
Filed : September 21, 2000

3. On information and belief, every error in the patent which was corrected in the present reissue application, and is not covered by the prior declarations submitted in this application, arose without any deceptive intent on the part of the applicants.

4. We declare that all statements made herein of our knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful, false statements may jeopardize the validity of the application or patent issuing therefrom.

Full name of First Inventor: Thomas Vaughan Wilder

Inventor's Signature: 

Date: 2/27/2004

Residence: 32 View Point, Laguna Niguel, CA 92677

Citizenship: United States

Post Office Address: Same as Above

Full name of Second Inventor: Alexander Parker Reynolds

DECLARATION OF INVENTORS THOMAS WILDER AND ALEXANDER REYNOLDS
UNDER 37 C.F.R. § 1.131

United States Patent and Trademark Office
P.O. Box 2327
Arlington, VA 22202

Dear Sir:

We, the undersigned inventors, hereby declare that:

1. We believe that we are the original, first and joint inventors of the subject matter described and claimed in U.S. Patent No. 5,810,369, issued September 22, 1998, and of the subject matter disclosed and claimed in the above-captioned reissue application.

2. Upon information provided to us by our attorneys it is our belief that a document entitled "Dwg No. 95078-23" purports to be dated April 16, 1996, and a rough sketch having the text "To: Jim Ball" purports to be dated March 13, 1996 (the "Critical Date"). Prior to the Critical Date, we conceived our invention for a roller skate chassis that has an A-frame construction when viewed in cross-section. Attached as Exhibits 1 and 2 are engineering drawings depicting die extrusion embodiments that were designed for use in making our

Appl. No. : 09/669,869
Filed : September 21, 2000

invention. The engineering drawings are true and correct, except that the original drawing dates, all of which were prior to the Critical Date, have been redacted.

3. Attached as Exhibits 3 and 4 are photographs of a prototype A-frame roller skate chassis that was constructed using a die extrusion as shown in the engineering drawing of Exhibit 1. This prototype was constructed prior to the Critical Date.

4. Prior to the Critical Date, we tested a prototype similar to the prototype shown in Exhibits 3 and 4 by attaching the prototype to a skate boot, attaching wheels to the prototype, and then using the assembly for skating. Upon completion of testing, and prior to the Critical Date, we were satisfied that our invention would work as intended.

5. We declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful, false statements may jeopardize the validity of the application or any patent issuing therefrom.

Respectfully submitted,

Dated: 2/27/2004

Thomas Vaughan Wilder
